

Office of Government Ethics

Pt. 2641, App. B

official shall determine whether any successor entity is substantially the same as the agency or a designated component that employed the former senior employee. Section 2641.204(g)(2)(iv)(A) through (g)(2)(iv)(C) should be used for guidance in determining how the 18 U.S.C. 207(c) bar applies when an agency or a designated component has been significantly altered.

(2) *Consultation with Office of Government Ethics.* When counseling individuals concerning the applicability of 18 U.S.C. 207(c) subsequent to significant organizational changes, the appropriate designated agency ethics official (DAEO) shall consult with the Office of Government Ethics. When it is determined that appendix B to this part no longer reflects the current organization of a parent agency, the DAEO shall promptly forward recommendations for designations or revocations in accordance with paragraph (e) of this section.

Example 1 to paragraph (g): An eligible former senior employee had served as an engineer in the Agency for Transportation Safety, an agency within Department X primarily focusing on safety issues relating to all forms of transportation. The agency had been designated as a distinct and separate component of Department X by the Director of the Office of Government Ethics. Subsequent to his termination from the position, the functions of the agency are distributed among three other designated components with responsibilities relating to air, sea, and land transportation, respectively. The agency's few remaining programs are absorbed by the parent. As the designated component from which the former senior employee terminated is no longer identifiable as substantially the same entity, the 18 U.S.C. 207(c) bar will not affect him.

Example 2 to paragraph (g): A scientist served in a senior employee position in the Agency for Medical Research, an agency within Department X primarily focusing on cancer research. The agency had been designated as a distinct and separate component of Department X by the Director of the Office of Government Ethics. Subsequent to her termination from the position, the mission of the Agency for Medical Research is narrowed and it is renamed the Agency for Cancer Research. Approximately 20% of the employees of the former agency are transferred to various other parts of the Department to continue their work on medical research unrelated to cancer. The Agency for Cancer Research is determined to be sub-

stantially the same entity as the designated component in which she formerly served, and the 18 U.S.C. 207(c) bar applies with respect to the scientist's contacts with employees of the Agency for Cancer Research. She would not be barred from contacting an employee who was among the 20% of employees who were transferred to other parts of the Department.

(h) *Unauthorized designations.* No agency or bureau within the Executive Office of the President may be designated as a separate agency component.
